## A RELIEF CONFERENCE

Important Meeting Is Being Held in Berlin Regarding Shipment of Food to Belgium and Poland.

BERLIN, Feb. 2.—Herbert C. Hoover, chairman of the American Belgian relief committee, has arrived in Berlin for an important conference with the German government. So important are these negotiations that it may be upon these depends whether American relief measures in Belgium can be continued or not.

With Mr. Hoover and Mr. Wickliffe Rose and Ernest Bicknell, who have been investigating conditions in Belgium and Poland, are in Berlin to consider the establishment of a relief organization in Poland.

A condition to the undertaking is the pledge of the German and the Austrian government not to requisition from the inhabitants any foodstuffs whatever for the use of the German and Austrian armies in Poland. There is good reason to believe that these pledges will be given; but if they are not, the relief measures for Poland as at present planned will have to be abandoned.

In the event that the two governments conclude to assent to the proposal that they requisition no foodstuffs from the people, grain could be imported into Poland from Rumania and the price would be comparatively low. If this plan of relief for Poland succeeds, an executive committee will be established with Julius Kuttmach as chairman.

## TURK DESERTERS DESCRIBE MARCH THROUGH DESERT

CAIRO, via London, Feb. 2.—Although there has been no further fighting in the Suez canal district a number of Turkish deserters have surrendered. They have given graphic descriptions of the march from Jerusalem by way of Beersheba and El Arish, near the boundary of Egypt and Palestine. They say they were provided only with a meagre supply of provisions and were compelled to buy food at high prices.

A wounded soldier told of being ordered to climb a telegraph pole and cut the wires. When he refused, saying "climbing was not part of a soldier's duty" the officer is said to have cut off one of his hands with a sword.

A lot of good examples are set that never hatch out.

## Smoked Cigarettes For 22 Years

Habit Was Ruining Him But He Conquered It in Three Days, Easily

The portrait below is that of Mr. P. J. Buzagary, a well-known citizen of Livingston, Missouri, who got rid of his habit of being ruined through the pernicious habit of cigarette smoking. Yet could not find anything to stop it and so the nervous craving until he got the remarkable book that can now be obtained free.

A clergyman, Rev. M. Ross, Dayton, Ohio, testifies that after having been a slave to tobacco 44 years, he got rid of the habit entirely in a few days, greatly improving his health.

Everybody in Mangum, Okla., is talking about the big change in Al Reeves, who put on 35 lbs. in healthy flesh, since getting rid of tobacco habit through the information gained in the free book which you may also obtain.

QUIT TOBACCO, GAINED 35 LBS. Everybody in Mangum, Okla., is talking about the big change in Al Reeves, who put on 35 lbs. in healthy flesh, since getting rid of tobacco habit through the information gained in the free book which you may also obtain.

BOOK GIVEN FREE. A valuable interesting book on how to overcome the tobacco habit (in any form) has been written by Edw. J. Woods, 525-B, Station E, New York, N. Y., and he will send it free to anyone who writes asking for it, as he is very anxious that all who are victims of the craving for tobacco, snuff, cigars or cigarettes may save themselves easily, quickly, surely and lastingly. Eye, heart, kidneys and stomach improved, nerves tranquilized, memory improved. Great number of numerous other benefits often reported.

## FROM THE WIRE

WASHINGTON, D. C., Feb. 2.—The supreme court has declined to review the decision of the circuit court of appeals in test case involving more than \$2,150,000 claims for damages against the Louisville and Nashville railroad for alleged forged bills of lading issued by Knight, Yancey, and company. The lower court had held the railroad not liable.

WASHINGTON, D. C., Feb. 2.—The Louisville railroad commission's order requiring railroads to establish tariffs for switching cars in the state, whether they were loaded for shipment out of or into the state, was annulled to day by the supreme court as an interference with interstate commerce.

MINNEAPOLIS, Minn., Feb. 2.—A suggestion that the combined fleets of Germany and the United States could curb Great Britain in her "pernicious policy" of controlling the seas, was made here in an address by Dr. Bernhard Dehnbach, formerly the colonial secretary of the German empire.

Through a far flung line of naval relations, Great Britain, he said, made the world's shipping dependent upon her will and through fortified points in Canada and island possessions controlled the entrance to the harbors of the United States.

WASHINGTON, D. C., Feb. 2.—New tariffs proposing increases in passenger rates from Chicago to the eastern boundary of Colorado have been filed with the interstate commerce commission by most of the railroads in western territory. It is believed they will prove an increase of about one-half per cent a mile. The increase would affect rates in the territory between the southern boundary of Colorado, extend east to the Mississippi river, and to the Canadian border.

RALEIGH, N. C., Feb. 2.—Cotton farmers throughout the state were urged to curtail their crop 50 per cent this year and officials of other cotton states were urged to recommend like action in their states by a resolution passed today by the upper house of the North Carolina general assembly. Similar resolution was passed by the lower house last week.

ROANOKE, Va., Feb. 2.—The steamship "Tynara," carrying Virginia's contribution for Belgium reached Rotterdam yesterday, according to a dispatch received in Roanoke. The voyage from Norfolk was described as eventful.

CHICAGO, Feb. 2.—Work of fumigating the stock yards was rushed here today in the hope of finishing operations and receiving governmental sanction to resume shipments of live stock by the middle of the week. The new federal quarantine covers nearly half of the state and shipments for immediate slaughter declined in volume in consequence.

EL PASO, Tex., Feb. 2.—Eligio Baca of Albuquerque, former speaker of the New Mexico house of representatives and once republican candidate for congress, held here yesterday on a charge of murder in connection with the death by shooting of Celestino Otero, also known as Dr. Pedro Abeta. Otero received his death wound after a pistol duel in which Baca said he was shot through the coat.

The shooting occurred in a lonely part of El Paso's Mexican quarter.

## BIBLES GIVEN HOTELS

Gideons Dedicated Them at Meeting and Several Addresses Were Made at Traveling Men's Banquet.

Two hundred and fifty Bibles were today placed in the Lee-Huckins hotel and are being placed in every hotel room in the city. This is the work of the Gideons, an association of Christian traveling men who are very active in Oklahoma now.

These Bibles are the ones dedicated for the purpose at a meeting held Saturday night at the First Methodist church. The funds for the purchase of the books were raised recently by the Gideons themselves and collections for that purpose were taken in many of the churches. At the meeting Saturday night, State President E. E. Olinger was the presiding officer. The gathering had a business session, attended by many residents of the city who are in sympathy with the work. The banquet was served by the women of the different churches.

Rev. George McQuiddy, pastor of the Maywood Christian church, delivered an address on "The Crime of Crowding the Bible from the Public Schools." J. G. Masters, principal of the high school, spoke on the influence of the Bible in the school, and Judge A. N. Menden addressed the audience on relation between the Bible and the law.

"Traveling Men" was the subject of a short talk by Rev. Phil C. Baird, pastor of the First Presbyterian church. Other addresses were given by Rev. R. A. Chase, pastor of the First Methodist Episcopal church, D. B. Welty of Oklahoma City and Joseph Schreiber, a traveling man from El Reno.

## OLD LOVERS MARRIED

W. J. Harding Was Married Today to Woman Who Was His Sweetheart in the Days of Their Early Youth.

A marriage which is the consummation of a love of half a century was authorized today by the issuance of license by A. E. Bockoven, clerk of the county court, to W. J. Harding and Mrs. N. J. Templin. Back in the school days of nearly fifty years ago these two were sweethearts, but N. J. Templin, the rival of Harding, won the hand and heart and the disappointed one lost all trace of his former love. A few weeks ago Harding, who is now 66 years old, chanced to meet the dream of early days on the streets of Agra. He knew at once that he could not be mistaken as to the identity and the conversation which followed revealed the fact that the husband had been dead for several years and that the two survivors had lived not many miles apart, neither knowing of the other's whereabouts.

When a man can't dodge an argument with a woman by agreeing with her what's the use?

Make This Cough Syrup.

To quickly cure the most stubborn cough and break up a cold in six to eight hours, there can be nothing better than the following simple remedy, for it has been tried in thousands of cases with wonderful success. Its popularity is increasing because of its cheapness and positive curative virtues. Obtain of druggist a 3% oz. package of Essence Menthe-Lazene; empty into a pint bottle. Then make a syrup by pouring a half pint of boiling water over a pint of granulated sugar. Stir, cool and fill up the bottle with syrup. Full directions for use are enclosed in the package. This home-made syrup effects a saving too, of from two to three dollars as compared with labeled cough medicines. —Advertisement.

# Public Service

Those institutions which serve the public, whether conducted by public or private enterprise, are something all are alike interested in.

Modern living conditions are such that we all require a greater or less amount of service.

The druggist's service is something that touches all and the quality of such service is always the prime consideration.

We are now and have for many years been giving expert service, in selling the people of this city their needs in the drug-line and whether it is the simplest little item or the most intricate prescription, the same pains-taking care goes with it.

We are always glad to add a new customer to our list, better try us the next time you need drugs, or things in the drug-line.

## NEW MOSQUITO FLEET

England Assembling Steam Fishing Trawlers to Be Used for Mine Sweepers and Big Ship Protectors.

YARMOUTH, England, Feb. 2.—The nickname of "Mosquito Fleet" applied to the navy's torpedo flotilla should be given to the steam fishing trawlers, of which the government is assembling a large number for the three-fold purpose of mine sweeping, protecting battleships from submarines and operating in the shallow waters of the Belgian coast against the Germans. More than 500 of these boats were requisitioned the last week and thousands already are out.

Trawlers still continue their original duty of sealing for menaces to shipping, as enormous quantities of mines are still strewn about.

Following the German raid on Scarborough and the Hartlepool last month, as many as 1,500 mines were picked up in one week. Many boats have been lost in this work; more than has been officially announced.

These German mines, with their brilliant contact fuses, often explode in the mines. They have enough weight attached to their cables to sink them about four feet under the surface, so they run with the tide to the shallow water where the weight strikes bottom and anchors.

Nothing is so effective against submarines as a fleet of trawlers around a fleet. The submarines must come close to be effective and they are easily detected by the trawlers on fishing to the surface to use the periscope. There is also the chance of getting in a shot at what the navy calls "tin whales."

A large fleet of trawlers will soon take part in the Belgian coast operations and some already are there. They carry four quick-firing guns of small caliber. The boats, by sailing in close under the lee of the sand dunes, increase the general volume of fire and help prevent the enemy's guns from taking a base along the

shore and making a direct target of the big monitors and cruisers.

Very few fishing boats are now left in Yarmouth out of its once great fleet and these are allowed to fish only off a small strip of coast. Moreover, it is difficult to man these since practically every able bodied fisherman is in the navy to which he belonged as a reservist.

The government pays a liberal rental for the boats. If it were not for this and the pay of the men now in the navy, there would be great want in all the coast towns.

## VERSES QUOTED IN DIVORCE CASE

"Daredevil Joe" Tracy Said to Have Written of Incense and Shrine to Fair Defendant.

NEW YORK, Feb. 2.—Discovery that the soul of a poet might lurk within the body of the winner of the Vanderbilt cup was made by Justice Chohansen in the supreme court, yesterday, when he reserved verses accorded to "Daredevil Joe" Tracy, correspondent in a divorce action begun by Francis Woodhull Cole, Jr., of Tarrytown, N. Y., against Fannie Collins Cole. Justice Chohansen reserved decision on the action and said nothing of the poetry.

Tracy wrote to Mrs. Cole. It is said: "I go to concert, party, ball; What profit is in these? So alone against the wall, And try to look at east. The incense that is mine by right They burn and burn above, And that's because she's twenty-nine And I am thirty-one." Some one remarked that Tracy must have collaborated with Mr. Kipling. But Mrs. Cole, in a flight of four lines, is said to have conveyed to Tracy the following thoughts: "The fumes of incense, heaven above, I breathe on wings of love, I follow thee on wings of love, Forever and for aye."

The married life of Mr. and Mrs. Cole was only a little longer than her poem. It is said she disappeared twenty-four hours following the ceremony in 1906. That same year Tracy won the Vanderbilt cup and the newspaper told of a "black eyed girl" who watched him sweep under the line a winner and shouted: "Good boy, Joe!"

# Buying a Piano Is Really A Matter of Trust

You will find extravagant statements, impossible claims and ridiculously low prices quoted on used pianos.

A used \$500 upright piano may be worth \$400, \$300, \$200, \$100 or \$50, the only measure of a bargain is price, quality, character, value and guarantee. ALL taken together.

To buy safely means a question of the house that sells you rather than the name of the piano and its price. The Jenkins plan protects and safe guards you.

We sell pianos, new and used, at lower prices than any other house. That's a strong statement and most important to you. The matter of buying a piano is one of TRUST.

St. P. L. Rose of Marietta bought a Player Piano by telephone the other day. He trusted us as he writes: "We are delighted with it. It measures up fully to your representations; as like the true and solid and expresses to you our satisfaction of your courteous treatment and selection for us. We could not have done better. But we don't do it to the expense to get you and make our selection."

Come in or Write.

We sell brand new Kurtsmann Pianos low as \$335; brand new Klamann & Nords, \$175; Elburus, \$225; Schaffers, \$265; Voses, \$300; Steinways, \$500. We have several real bargains in used Pianos—such as a Hazelton Bros, \$145; Story & Clark, \$200; Elburn back front rent, \$190, etc.
